Vehicle Inspection Division Bulletin

January 2016

Topics in this Bulletin: Emissions Announcement

Revision of Manufacturer's Emissions Specifications

The specifications for the On-Board Diagnostic (OBD) emissions analyzer equipment used by authorized Emissions Inspection Stations under the Commonwealth's emission program is being updated.

We anticipate a release date on the updated specifications by spring of 2016 to the Equipment Manufacturers. The Equipment Manufacturers will be given a timeline to develop the software changes and receive software/hardware certification from the Department's contracted Emissions Program Manager.

As the updated specifications are finalized for the Equipment Manufacturers, we will keep stations informed through this bulletin.

If you have any questions, please contact the Vehicle Inspection Division at (717) 787-2895.

Anita M. Wasko, Director
Bureau of Motor Vehicles
