STATION SIGNS: POSTING CURRENT PROGRAM MANAGEMENT FEE

Effective October 9, 2012, the Emissions Inspection Program Management Fee (PMF) was reduced from \$2.40 to \$1.47 per transaction. Emissions inspection stations are required to update their fee sign(s) to reflect the new PMF.

E-SAFETY FREE TRIAL PERIOD

The e-SAFETY program is PennDOT's voluntary electronic safety inspection data collection and storage system. There is still time to take advantage of the free trial period being offered to all stations. Stations that sign up now will not pay e-SAFETY transaction fees through January 31, 2013. You have the opportunity to sign up for the free trial period anytime before the end of 2012, but signing up early will provide the maximum free trial period. This is a voluntary program that enables safety inspection stations to electronically capture safety inspection data and eliminates the manual MV-431 and MV-480 inspection records. After the free trial period ends January 31, 2013, you may opt to end your participation or continue in the program at the regular Program Management Fee of \$0.18 per transaction. Details and enrollment information can be obtained by contacting the Station Operator Hotline at 1-888-265-5909.

After the free trial period, feedback will be gathered from e-SAFETY participating stations for ways to improve the current e-SAFETY system. By signing up now, you will have input and can make recommendations about improvements to make this a more valuable tool for your station.
